# SÁCH BÀI TẬP TỔNG HỢP PHỤC VỤ ÔN THI ĐH

TÀI LIỆU LƯU HÀNH NỘI BỘ

## LỜI GIỚI THIỆU

Trong quá trình giảng dạy và đồng hành cùng học sinh Việt Nam, tôi nhận thấy rằng các em không chỉ cần kiến thức lý thuyết, mà còn cần thật nhiều cơ hội luyện tập có hệ thống, bám sát thực tế và hướng tới khả năng **sử dụng tiếng Anh một cách chủ động**. Từ mong muốn đó, cuốn “**Sách Bài tập Tổng hợp Phục vụ Ôn thi ĐH**” đã ra đời.

Cuốn sách được biên soạn dựa trên những **chủ điểm ngữ pháp, từ vựng, và kỹ năng thiết yếu** trong chương trình phổ thông và luyện thi. Mỗi phần bài tập đều được thiết kế tỉ mỉ, giúp người học:

- Củng cố kiến thức trọng tâm một cách tự nhiên.
- Phát triển khả năng suy luận, không học máy móc.
- Làm quen với dạng bài thường gặp trong kiểm tra, thi cử, cũng như trong giao tiếp thực tế.

Bên cạnh đó, nội dung sách được cập nhật thường xuyên, kết hợp giữa **tính học thuật và tính thực tiễn**, với ví dụ, đoạn hội thoại, và tình huống quen thuộc trong đời sống. Đây không chỉ là một tài liệu ôn tập, mà còn là **người bạn đồng hành** giúp học sinh rèn luyện tư duy ngôn ngữ, từng bước tiến gần hơn đến việc sử dụng tiếng Anh tự tin, chính xác và sáng tạo.

Tôi hy vọng rằng, cuốn sách này sẽ trở thành **một công cụ hữu ích** cho các em học sinh, giáo viên, và những ai yêu thích tiếng Anh – những người luôn nỗ lực học hỏi mỗi ngày để mở rộng thế giới của mình qua ngôn ngữ.

Chúc các bạn học tập thật hiệu quả và tìm thấy niềm vui trên hành trình chinh phục tiếng Anh!

- Anh Ngữ Thầy Vinh

Students **study** hard to achieve better **results**, and teachers **prepare** lessons with great **enthusiasm**. Everyone feels **happy** and **energetic** during this beautiful season of the year.

#### BÀI TẬP 3 – TIẾNG VIỆT (TRUNG BÌNH)

Những **thành tựu** khoa học hiện đại đã góp phần nâng cao chất lượng cuộc sống của con người. Người dân **đang nỗ lực** giảm thiểu rác thải nhựa trong sinh hoạt hàng ngày, **bất chấp** những khó khăn ban đầu. **Nếu** chúng ta không hành động ngay, môi trường sẽ bị hủy hoại nghiêm trọng. Chính phủ **đã ban hành** nhiều chính sách để khuyến khích đầu tư xanh và hỗ trợ doanh nghiệp chuyển đổi sang mô hình **bền vững**. **Trong khi** nền kinh tế đang phát triển, ý thức bảo vệ môi trường của cộng đồng cũng dần được nâng cao.

## BÀI TẬP 4 – TIẾNG ANH (INTERMEDIATE LEVEL)

Modern **scientific achievements** have improved the quality of human life. Citizens are **making efforts** to reduce plastic waste in their daily activities, **despite** the initial difficulties. **If** we don't act now, the environment will face serious damage. The government **has issued** several policies to promote green investment and encourage **sustainable** development. **While** the economy continues to grow, people's awareness of environmental protection is also gradually increasing.

## BÀI TẬP 5 – SONG NGỮ (BILINGUAL – ACADEMIC CONTEXT)

The **development** of technology (**sự phát triển** của công nghệ) has changed the way people **communicate** (**giao tiếp**) and **work** (**làm việc**). Today, we can **instantly** (**ngay lập tức**) send messages across the world, and this **innovation** (**sự đổi mới**) has made life more **convenient** (**tiện lợi**) than ever. **Education** plays an important role in **developing** a country's economy, and governments should **invest** more in **quality** education to ensure future growth. Nhờ vào sự **đầu tư** đúng **hướng**, con người ngày nay có nhiều cơ hội **học hỏi** và **phát triển** bản thân hơn so với trước đây.

## BÀI TẬP 6 – TIẾNG VIỆT (HỌC THUẬT)

**Giáo dục** đóng vai trò quan trọng trong việc **phát triển** kinh tế và xã hội của một quốc gia. Thông qua quá trình **đào tạo** phù hợp, học sinh có thể tích lũy cả **kiến thức** lẫn **kỹ năng** thực hành, giúp họ thích nghi với những thay đổi nhanh chóng của thời đại mới. Chính phủ cần **đầu tư** nhiều hơn vào **chất lượng** giáo dục để đảm bảo sự phát triển bền vững. Nhiều nhà nghiên cứu **cho rằng** việc áp dụng công nghệ trong học tập mang lại hiệu quả cao, đồng thời **khuyến khích** người học **tự duy** độc lập và **sáng tạo** hơn trong quá trình tiếp thu tri thức.

## BÀI TẬP 7 – TIẾNG ANH (ADVANCED LEVEL)

The **rapid** growth of cities has led to serious **environmental** problems. People are now trying to **find** more **sustainable** ways of living, and many organizations **encourage** citizens to use **renewable** energy sources. Scientists **believe** that innovation will bring positive **changes** in the future, improving both the **quality** of life and the balance of nature. The **protection** of natural resources is essential for human survival, and everyone must **take** responsibility to preserve the planet for the next generations.

## BÀI TẬP 8 – TIẾNG VIỆT (NÂNG CAO)

**Sự phát triển nhanh chóng** của các đô thị đã dẫn đến nhiều vấn đề môi trường nghiêm trọng. Con người ngày nay đang cố gắng **tìm kiếm** những cách sống **bền vững** hơn, nhằm giảm thiểu tác động tiêu cực đến thiên nhiên. Nhiều tổ chức **khuyên khích** người dân sử dụng năng lượng **tái tạo** và **giảm thiểu** lượng khí thải ra môi trường. Các nhà khoa học **tin rằng** đổi mới sẽ mang lại những **thay đổi tích cực** trong tương lai, góp phần xây dựng một thế giới **xanh sạch đẹp** hơn. Việc **bảo vệ** tài nguyên thiên nhiên cần được xem là trách nhiệm chung của toàn xã hội.

## BÀI TẬP 9 – HỘI THOẠI TIẾNG ANH (DAILY CONVERSATION)

A: Hey, you look **worried**. What's wrong?

B: I'm just a bit **nervous** about tomorrow's presentation.

A: Don't worry! You **speak** very clearly and your slides are **well-prepared**.

B: Thanks. I just hope everything goes **smoothly**.

A: It will. Just remember to **smile** and **take** a deep breath before you start.

## BÀI TẬP 10 – HỘI THOẠI TIẾNG VIỆT (GIAO TIẾP THỰC TẾ)

A: Hôm nay trông bạn có vẻ **mệt** đấy, có chuyện gì không?

B: Ủ, tối qua mình **thức khuya** làm bài nên sáng nay hơi **uể oải**.

A: Bạn nên **nghỉ ngơi** một chút, uống cốc nước **âm** rồi thư giãn đi.

B: Cảm ơn nhé, lát nữa mình **ngủ** một giấc ngắn cho lại sức.

A: Ủ, nhớ **ăn trưa** đầy đủ nhé, đừng bỏ bữa nữa đó!

## BÀI TẬP 11 – TIẾNG ANH

It was a **must** for everyone to arrive on time. The teacher gave us a **clean** start after the break, hoping we would **better** our results. She spoke in a **clear** voice, but the noise outside made it **hard** to focus. Only the **strong** managed to stay calm, while the **late** students waited outside for their turn.

## BÀI TẬP 12 – TIẾNG VIỆT (Từ chuyên loại và ẩn nghĩa)

**Sự thật** không phải lúc nào cũng dễ chấp nhận. Có người chọn **im lặng**, có người lại **nói thật** dù biết sẽ bị tổn thương. Cái **đẹp** trong tâm hồn khác với cái **đẹp** bên ngoài, nhưng cả hai đều đáng được trân trọng. Đôi khi, chỉ một ánh **nhìn** thôi cũng đủ khiến ta **hiểu** nhiều điều mà lời nói không thể diễn tả.

## BÀI TẬP 13 – TIẾNG ANH (Functional Shifts & Subtle Conversion)

The **present** you gave me was truly unexpected. When you **present** your ideas tomorrow, make sure they're **clear** and well-structured. Many students feel **tired**, but a few remain **awake** even after midnight. The **poor** often suffer the most, but they're also the **kindest** at heart.

## BÀI TẬP 14 – TIẾNG VIỆT (Cấu trúc đánh lừa loại từ)

Anh ấy **đứng đầu** lớp về môn Toán, nhưng lại rất **thấp** về chiều cao. Điều **khó** không nằm ở bài tập, mà ở việc **hiếu** được bản chất vấn đề. Cô giáo luôn **khen** những ai có **cố gắng**, vì với cô, nỗ lực là điều đáng quý hơn cả **thành công**. Người **đứng sau** đôi khi lại là người **tiến xa** nhất.

## BÀI TẬP 15 – TIẾNG ANH (Contextual Ambiguity – Mơ hồ ngữ cảnh)

They **like** simple things, but simplicity is never **simple** to achieve. He's a **fast** learner, yet he needs to **work fast** to meet deadlines. The **best** part of the movie wasn't the ending, but the **best** performance in the middle. She walked **straight** into the room and gave a **straight** answer, leaving everyone **right** where they stood — confused but impressed.

## BÀI TẬP 16 – TIẾNG ANH

The **close** of the day brought silence to the valley. The wind grew **cold**, and the **light** began to fade. She **lighted** a candle and sat **still**, her eyes fixed on the **open** door. It was strange how something so **quiet** could feel so **loud** inside her mind. The **dead** leaves whispered beneath her feet, reminding her that endings are sometimes **new beginnings** in disguise.

## BÀI TẬP 17 – TIẾNG VIỆT (Ngữ cảnh báo chí & chuyên nghĩa)

Trong bài phát biểu mới nhất, ông Bộ trưởng khẳng định rằng **mở cửa** kinh tế là điều cần thiết, nhưng phải đi kèm với **kiểm soát** chặt chẽ. Ông cho rằng sự **thật thà** trong quản lý quan trọng không kém hiệu quả. Một số chính sách **mở rộng** được đề xuất, song nhiều ý kiến lại **phản đối** do lo ngại về **tác động** dài hạn. Dù quan điểm khác nhau, tất cả đều đồng thuận rằng **minh bạch** là nền tảng cho sự phát triển bền vững.

## BÀI TẬP 18 – TIẾNG ANH

The company promised a **fair** deal for all employees, yet many claimed the offer was **hardly fair**. During the conference, the CEO tried to **sound** confident, but his **sound** reasoning failed to convince investors. The report stated that the market remained **stable**, though **stability** was questioned by experts. After the meeting, stocks fell **close** to their lowest point of the year, but analysts expected a **close** recovery soon after.

## ĐOẠN 1 – POWER OF READING DAILY

Reading every day is one of the most effective ways to improve your knowledge and language skills. When you read, your brain becomes more active, and you are exposed to new ideas and vocabulary. Reading not only increases your understanding of the world but also improves focus and imagination. People who read regularly often think more critically and express themselves better in both speaking and writing. Even 15 minutes of reading a day can make a big difference over time.

### CÂU HỎI

#### Dạng 1 – Main Idea

- What is the main idea of the passage?
  - Reading improves your imagination.
  - Reading every day develops your mind and skills.
  - Reading makes people more creative only.
  - Reading is only useful for students.

#### Dạng 2 – Detail Questions

- How much time does the passage suggest for daily reading?
  - 5 minutes
  - 10 minutes
  - 15 minutes
  - 30 minutes
- According to the text, reading helps people to:
  - sleep better
  - cook better
  - think more critically
  - memorize more words

#### Dạng 3 – Inference

- From the passage, we can infer that people who read often are likely to be:
  - silent
  - confident
  - confused
  - nervous

#### Dạng 4 – Vocabulary in Context

- The word “*exposed to*” in the text means:
  - protected from
  - introduced to
  - separated from
  - bored with

#### Dạng 5 – True / False / Not Given

- Reading for a short time every day is useless.
- People who read regularly can express themselves better.
- Reading is only helpful for writing skills.

#### Dạng 6 – Summary Completion

Complete the summary with suitable words.

Reading daily helps you (1) \_\_\_\_\_ your knowledge, (2) \_\_\_\_\_ new vocabulary, and (3) \_\_\_\_\_ critical thinking.

## ĐOẠN 2 – DIGITAL VS PRINTED READING

Nowadays, many people prefer reading online rather than printed books. Digital reading is convenient because you can carry thousands of books in one device. However, some studies suggest that reading on screens can reduce concentration. Printed books allow deeper understanding since readers can take notes or underline important parts. A balanced combination of both types may be the best choice for modern learners.

### CÂU HỎI

*Dạng 1 – Main Idea*

1. What is the passage mainly about?
  - Why printed books are cheaper
  - The advantages and disadvantages of digital reading
  - How to buy e-books online
  - Why people stop reading

*Dạng 2 – Details*

2. What is one benefit of printed reading mentioned in the passage?
  - It allows note-taking and focus.
  - It saves electricity.
  - It is faster to read.
  - It improves eyesight.
3. What problem may appear when reading on screens?
  - More vocabulary
  - Better memory
  - Less concentration
  - More enjoyment

*Dạng 3 – Vocabulary*

4. The word “*convenient*” in line 1 is closest in meaning to:
  - expensive
  - comfortable
  - difficult
  - dangerous

*Dạng 4 – Inference*

5. We can infer that the author prefers:
  - only printed books
  - a balance between printed and digital reading
  - only reading online
  - not reading at all

## ĐOẠN 3 – READING AND SUCCESS

Successful people around the world share one common habit — they read. Reading helps people learn from others' experiences and avoid making the same mistakes. For example, famous leaders often read books on history, leadership, and science. Reading opens doors to creativity and innovation. In short, every successful person is a lifelong reader.

### CÂU HỎI

## Dạng 1 – Main Idea

- What is the main idea of this passage?
  - Reading is boring for successful people.
  - Successful people like to read history only.
  - Reading plays a key role in success.
  - Reading is a waste of time.

## Dạng 2 – True / False

- Reading helps people repeat the same mistakes.
- Successful people read for entertainment only.
- Reading improves creativity.

## Dạng 3 – Gap Fill

- Reading allows people to learn from others' (1) \_\_\_\_\_ and avoid (2) \_\_\_\_\_ the same mistakes.

## Dạng 4 – Critical Thinking

- Why do you think successful people spend time reading instead of relaxing?
- What kind of books do you think future leaders should read?

**ĐOẠN 4 – HOW TO IMPROVE YOUR READING SKILLS**

To improve reading comprehension, students should practice active reading. This means asking questions, predicting ideas, and summarizing after each paragraph. It is also helpful to highlight key words and take short notes. Reading different types of materials — novels, news, articles — makes you a faster and more flexible reader. Like any skill, reading improves with consistent practice.

**CÂU HỎI**

## Dạng 1 – Main Idea

- What is the best title for this passage?
  - The Benefits of Reading Fast
  - How to Become an Active Reader
  - Why Students Dislike Reading
  - The Dangers of Reading Too Much

## Dạng 2 – Detail

- Which activity helps improve comprehension?
  - Skipping difficult parts
  - Reading silently only
  - Asking questions while reading
  - Reading one type of book

## Dạng 3 – Vocabulary

3. The word “*consistent*” is closest in meaning to:  
 A. regular B. random C. slow D. quick

## Dạng 4 – True / False

4. The passage suggests that note-taking can help reading.  
 5. It is unnecessary to read different kinds of texts.

## Dạng 5 – Sentence Completion

6. Students should practice active reading by \_\_\_\_\_.  
 7. Reading many genres helps learners become \_\_\_\_\_.

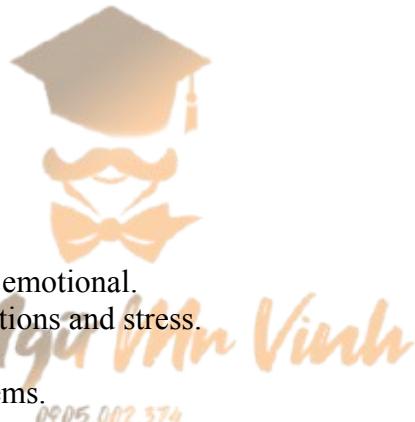

**ĐOẠN 5 – READING AND EMOTIONAL WELL-BEING**

Reading is not only good for the brain but also for the heart. When people read stories, they experience different emotions and understand others' feelings. Reading can reduce stress and improve empathy. Many people find comfort in reading because it allows them to escape from real-life worries. In a fast world, reading gives the mind a moment of peace.

**CÂU HỎI**

## Dạng 1 – Main Idea

1. What is the main idea of the passage?  
 A. Reading helps people become more emotional.  
 B. Reading has positive effects on emotions and stress.  
 C. Reading is only for entertainment.  
 D. Reading makes people forget problems.

## Dạng 2 – Vocabulary

2. The word “*empathy*” means:  
 A. ability to understand others' feelings  
 B. a strong memory  
 C. physical strength  
 D. happiness

## Dạng 3 – Inference

3. We can infer that reading fiction helps people:  
 A. become more caring  
 B. lose focus  
 C. waste time  
 D. sleep more

## Dạng 4 – True / False

4. Reading can reduce stress levels.
5. Reading causes people to ignore their emotions.

**DOẠN 6 - ADVANCED READING PRACTICE: WHY WE READ**

In a world full of screens and constant notifications, reading has become a quiet rebellion.

Many people say they are “too busy” to read, yet they spend hours scrolling through social media.

Unlike digital content, books demand patience, imagination, and reflection.

When we read, our brains slow down, allowing us to understand ideas deeply instead of jumping quickly from one post to another.

Scientists have found that reading activates the same parts of the brain used for imagination, empathy, and decision-making — skills essential in both work and relationships.

Another reason people read is to escape reality.

A good story can transport readers to a different world, helping them experience emotions they may not feel in daily life.

However, reading fiction does more than entertain — it trains emotional intelligence.

People who often read fiction are better at understanding others’ feelings because they have “lived” many lives through the characters they meet in stories.

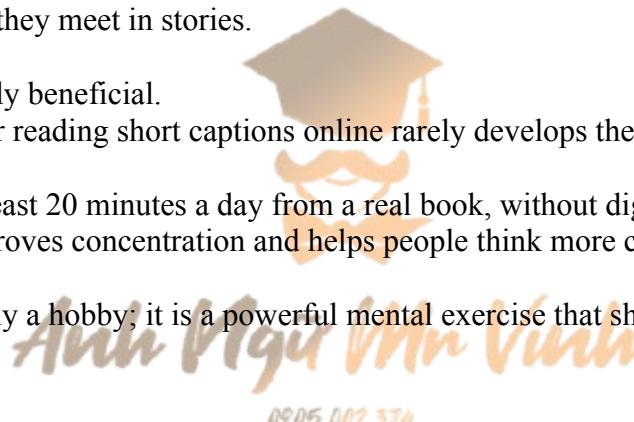

Still, not all reading is equally beneficial.

Skimming news headlines or reading short captions online rarely develops the same mental depth as sustained reading.

Experts suggest reading at least 20 minutes a day from a real book, without digital distractions.

This consistent practice improves concentration and helps people think more critically about the world around them.

In short, reading is not simply a hobby; it is a powerful mental exercise that shapes who we are.

**QUESTIONS****Dạng 1 – Main Idea**

1. What is the main idea of the passage?
  - A. Reading is disappearing because of technology.
  - B. Reading helps develop thinking and emotional depth.
  - C. People should avoid fiction and focus on facts.
  - D. Social media improves imagination.
2. According to the text, reading helps people become better at:
  - A. multitasking
  - B. decision-making
  - C. memorizing dates
  - D. physical exercise
3. What is one reason mentioned for why people enjoy fiction?
  - A. It helps them escape daily stress.
  - B. It improves their eyesight.
  - C. It teaches them real-life skills directly.
  - D. It replaces social media time.

4. The phrase “*quiet rebellion*” in paragraph 1 most nearly means:
  - A. a calm form of resistance against modern habits
  - B. a noisy argument resulted from a habit
  - C. a political protest that goes against a political party
  - D. a silent book club that mostly includes introverts
5. The word “*sustained*” in paragraph 3 is **CLOSEST** in meaning to:
  - A. short
  - B. regular
  - C. effortless
  - D. emotional
6. What can we infer about people who read social media more than books?
  - A. They are more empathetic.
  - B. They may have shorter attention spans.
  - C. They think more critically.
  - D. They read faster but understand better.
7. What can we infer about fiction readers’ social skills?
  - A. They struggle to express emotions.
  - B. They are less logical than others.
  - C. They may understand people’s feelings more easily.
  - D. They often confuse real life and fantasy.

### True / False / Not Given

8. Reading activates parts of the brain related to empathy.
9. The text says digital reading is always harmful.
10. The author believes reading fiction has no practical value.

Complete the summary below using **NO MORE THAN TWO WORDS** from the passage.

Reading today has become more than just a way to spend free time — it is described as a form of **quiet resistance** in a world full of distractions. Unlike scrolling through social media, reading allows the brain to slow down and process information with greater depth. It requires (1) \_\_\_\_\_ and (2) \_\_\_\_\_, helping readers to build empathy and emotional understanding. *0905.002.374*

Fictional stories not only entertain but also teach readers how to understand (3) \_\_\_\_\_ through the experiences of characters. Experts say that skimming short online texts cannot provide the same (4) \_\_\_\_\_ as focused reading from books. They recommend spending about (5) \_\_\_\_\_ each day to improve concentration, strengthen critical thinking, and maintain (6) \_\_\_\_\_ in modern life.

### ĐOẠN 7 – ADVANCED READING PRACTICE: THE SCIENCE OF FOCUS

In today’s world, focus is becoming a rare skill.

Our phones, with endless notifications and social media updates, constantly interrupt our attention. The human brain is not designed to switch tasks rapidly; when it does, it loses efficiency and energy. Studies show that after being distracted, it can take up to twenty minutes for a person to regain full concentration.

This constant shifting between tasks is called *attention residue*, and it explains why we often feel mentally tired even when we haven’t done much.

One of the best ways to rebuild focus is through *deep work* — long, uninterrupted periods of concentrated effort.

Writers, scientists, and programmers often produce their best ideas during these sessions. Deep work doesn't require a quiet cabin in the mountains; it simply means turning off distractions, setting a clear goal, and committing your full attention. This process strengthens the brain's ability to resist interruptions.

Interestingly, reading physical books can train similar mental muscles. When reading, the mind has to stay with one line of thought for several minutes without switching tasks. This type of mental training improves patience and clarity of thought. In a fast-paced digital world, those who can control their attention will have a major advantage — not just at work, but in learning and creativity as well.

1. **What is the main idea of the passage?**
  - A. Focus is a natural skill that needs no practice.
  - B. Deep work and reading both help strengthen attention.
  - C. Distractions improve creativity and motivation.
  - D. The brain is designed for multitasking.
2. **What does the author call *attention residue*?**
  - A. The leftover focus after finishing a task.
  - B. The mental fatigue caused by constant switching.
  - C. The habit of thinking too deeply.
  - D. The time spent avoiding work.
3. **Which example is mentioned as an activity similar to deep work?**
  - A. Jogging daily
  - B. Reading physical books
  - C. Talking on the phone
  - D. Checking email
4. The word "***regain***" in paragraph 1 is CLOSEST in meaning to:
  - A. recover
  - B. reject
  - C. reduce
  - D. forget
5. **What can be inferred about deep work sessions?**
  - A. They can only happen in quiet places.
  - B. They make people more easily distracted.
  - C. They require commitment and no interruptions.
  - D. They are shorter but more enjoyable.

### True / False / Not Given

- a. The human brain can easily handle multiple tasks at once.
- b. Reading helps improve concentration.
- c. The author believes technology has no effect on focus.

Complete the summary below using **NO MORE THAN THREE WORDS**.

Focus has become a rare and valuable ability in the modern world, where constant (1) \_\_\_\_\_ and social media updates compete for people's attention. Research shows that the brain is not designed to (2) \_\_\_\_\_ tasks quickly, and frequent switching reduces both efficiency and energy.

To rebuild attention, scientists recommend practicing (3) \_\_\_\_\_ — long, uninterrupted periods of intense work that strengthen the mind's resistance to distraction. Similar benefits can also come from reading printed books, which train the brain to stay on one idea for longer. After every interruption, it may take up to (4) \_\_\_\_\_ to fully regain concentration.

By developing these habits, people can sharpen their focus, think more clearly, and gain a major (5) \_\_\_\_\_ in both learning and creativity. Ultimately, the ability to control attention has become one of the most essential (6) \_\_\_\_\_ for success in the digital age.

## ĐOẠN 8 – ADVANCED READING PRACTICE: THE POWER OF HABITS

Every day, we repeat hundreds of small actions without realizing it — from brushing our teeth to checking our phones.

These actions form *habits*, and habits shape our lives more than motivation or willpower ever could.

According to psychologists, habits are the brain's way of saving energy.

When an action becomes automatic, the brain can focus on other important tasks.

That's why successful people don't rely on motivation alone; they build systems that make good habits easy and bad habits difficult.

Habits follow a simple pattern called the *habit loop*: cue, routine, and reward.

The cue triggers the behavior, the routine is the action itself, and the reward reinforces it.

For example, seeing your running shoes (cue) makes you go for a jog (routine) and feel refreshed (reward).

If you repeat this loop often enough, it becomes automatic.

Breaking a bad habit, however, requires identifying the cue and replacing the routine with something healthier.

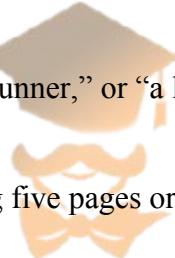

Science also shows that habits influence identity.

When you start to see yourself as "a reader," "a runner," or "a learner," your behavior changes naturally to match that belief.

The key is consistency, not intensity.

Doing something small every day — like reading five pages or learning one new word — has more impact than doing a lot once in a while.

In short, our habits quietly decide who we become.

1. **What is the main idea of the passage?**
  - A. Habits are less important than motivation.
  - B. Good habits are built through consistency and cues.
  - C. The habit loop only applies to bad behaviors.
  - D. Motivation is the main driver of success.
2. **What is the purpose of the *habit loop*?**
  - A. To explain how habits are formed.
  - B. To describe how people lose focus.
  - C. To show that habits are useless.
  - D. To criticize repetitive actions.
3. The word "***cue***" in paragraph 2 means:
  - A. signal
  - B. obstacle
  - C. mistake
  - D. feeling
4. **What can we infer about successful people?**
  - A. They depend on motivation more than structure.
  - B. They design systems that support good habits.
  - C. They avoid routines completely.
  - D. They dislike repetition.
5. **According to the text, what happens when you identify your cue?**
  - A. You can change your routine more easily.
  - B. You can forget your bad habits.

- C. You immediately stop the habit.
- D. You lose motivation.

**True / False / Not Given**

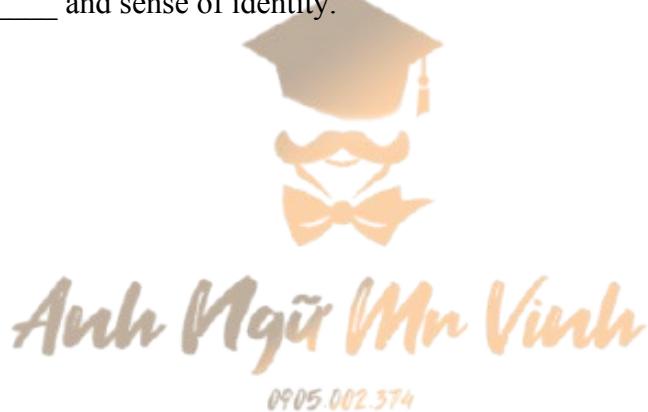

- a. Habits help the brain save energy.
- b. Habits are always bad for productivity.
- c. Identity has no link to behavior.

Complete the summary below using **NO MORE THAN THREE WORDS** from the passage.

Habits play a powerful role in shaping daily life and long-term success. They are formed through a pattern known as the (1) \_\_\_\_\_, which includes three parts: cue, routine, and reward.

A (2) \_\_\_\_\_ acts as the trigger, while the routine is the action that follows. The (3) \_\_\_\_\_ reinforces the behavior, making it more automatic over time. To change a bad habit, psychologists suggest identifying the (4) \_\_\_\_\_ and replacing it with a healthier routine.

Unlike motivation, which often fades quickly, habits rely on (5) \_\_\_\_\_ — small, repeated actions that eventually create lasting change. Over time, consistent routines not only improve performance but also help define one's personal (6) \_\_\_\_\_ and sense of identity.

## BÀI 23 – MATCHING HEADINGS

### TÌM TIÊU ĐỀ CỦA ĐOẠN VĂN

#### THE RISE OF ARTIFICIAL INTELLIGENCE

**A.**

Artificial Intelligence (AI) has moved rapidly from science fiction to practical reality. Once imagined only in futuristic films, AI is now part of daily life — from voice assistants like Siri and Alexa to algorithms that recommend what we watch and buy. At its core, AI refers to the ability of machines to perform tasks that usually require human intelligence, such as understanding language, recognizing patterns, and making decisions.

**B.**

The journey of AI began in the mid-20th century, when researchers first attempted to create machines that could mimic the human mind. In the 1950s, early computers were programmed to solve mathematical problems and play basic games like chess. While progress was slow at first due to limited technology, key breakthroughs in the 1980s and 1990s paved the way for today's advanced AI systems.

**C.**

Modern AI operates in various sectors, offering solutions to complex problems. In healthcare, AI is used to diagnose diseases faster and more accurately. In finance, it detects fraudulent activities. Even in agriculture, AI helps farmers monitor crop health and predict yields. As technology improves, AI is expected to play an even larger role in solving global challenges.

**D.**

Despite its advantages, AI raises serious ethical concerns. One major issue is data privacy, as AI systems often rely on personal data to function well. Another concern is the potential for bias, as algorithms can reflect human prejudices if not designed carefully. Additionally, there is growing fear that AI could replace human jobs, particularly in manufacturing and customer service.

**E.**

To address these concerns, many governments and institutions are developing rules to guide the ethical use of AI. These include regulations on how data is collected and used, and guidelines to ensure fairness and transparency. Some organizations also encourage involving diverse teams in AI development to reduce bias.

**F.**

Looking ahead, experts believe AI will continue to grow in importance. While some predict that machines may one day surpass human intelligence, others emphasize collaboration between humans and machines. With the right safeguards and responsible innovation, AI has the potential to improve lives worldwide.

#### Questions 1–6: Matching Headings

Match the correct heading (i–ix) to each paragraph (A–F).

Write the correct **Roman numeral (i–ix)** next to each letter.

#### List of Headings

- i. Applications of AI in daily life
- ii. Historical background of artificial intelligence
- iii. Future prospects and human–machine cooperation

- iv. Solutions to ethical challenges
- v. Ethical concerns surrounding AI
- vi. Definition and examples of AI
- vii. The danger of AI becoming too powerful
- viii. Government regulation and policy
- ix. AI in science fiction stories

## SUSTAINABLE SOLUTIONS

### A.

The twenty-first century faces one of humanity's greatest challenges — protecting the environment while sustaining economic growth. Urbanization, industrialization, and overconsumption have placed enormous pressure on natural systems. As populations grow and demand for energy increases, forests are cut down, oceans are polluted, and biodiversity continues to decline at an alarming rate. Environmental protection is no longer a regional issue; it has become a global responsibility.

### B.

Among the most urgent concerns is climate change. The burning of fossil fuels releases large amounts of greenhouse gases such as carbon dioxide and methane, which trap heat in the atmosphere. This process, known as the greenhouse effect, has led to rising global temperatures, melting ice caps, and increasingly severe natural disasters. Scientists warn that without immediate action, the planet may reach a tipping point beyond which recovery becomes impossible.

### C.

Deforestation is another major factor contributing to environmental degradation. Forests play a crucial role in absorbing carbon dioxide and regulating rainfall. However, millions of hectares are cleared every year for agriculture, logging, and urban expansion. When forests disappear, so does the habitat of countless species, pushing many of them toward extinction. Moreover, soil erosion and floods become more frequent in deforested areas.

### D.

Pollution — in the air, water, and soil — directly threatens human health. Industrial waste, plastic debris, and chemical fertilizers contaminate rivers and oceans, harming marine life and entering the food chain. Air pollution, caused mainly by vehicles and factories, contributes to respiratory diseases and reduces life expectancy. The environmental crisis, therefore, is not just ecological but also social and medical.

### E.

Addressing these challenges requires a shift toward sustainability. Renewable energy sources such as solar, wind, and hydroelectric power provide cleaner alternatives to fossil fuels. Governments and businesses are increasingly investing in eco-friendly technologies and green infrastructure. Public awareness campaigns encourage individuals to reduce waste, recycle materials, and adopt responsible consumption habits.

### F.

Despite progress, the road to sustainability remains long. Many developing countries still depend heavily on cheap energy and resource extraction to support their economies. Global cooperation and strict environmental policies are essential to ensure that future generations inherit a livable planet. Protecting the environment is not a temporary trend — it is a shared commitment for survival.

### Questions 1–6: Matching Headings

Match the correct heading (i–ix) to each paragraph (A–F).  
Write the correct **Roman numeral (i–ix)** next to each letter.

### List of Headings

- i. The growing threat of climate change
- ii. The link between pollution and human health
- iii. The urgent need for collective responsibility
- iv. Technological and behavioral solutions
- v. Deforestation and its consequences
- vi. Economic dependence on harmful practices
- vii. The role of renewable energy
- viii. Environmental degradation caused by industries
- ix. The continuing challenge of global cooperation

## MODERN HEALTH AND LIFESTYLE

### A.

Modern life offers comfort and technology, but it also creates new health challenges. Many people spend most of their day sitting in front of screens, whether at work, school, or home. This lack of movement has led to what experts call “the sitting disease,” which increases the risk of obesity, diabetes, and heart problems. Even those who exercise regularly may not fully undo the harm caused by sitting for long periods every day.

### B.

Another serious issue is poor diet. Fast food and processed snacks are quick and cheap, but they often contain too much sugar, salt, and unhealthy fats. People eat them because they are convenient, especially in busy cities. However, these foods can lead to long-term health problems such as high blood pressure and cholesterol. Nutritionists recommend a balanced diet rich in fruits, vegetables, and whole grains to protect the body and maintain energy levels throughout the day.

### C.

Stress has also become a silent enemy of modern health. The pressure to succeed at work or school, financial worries, and constant notifications from phones make it difficult to relax. Chronic stress weakens the immune system, causes headaches, and affects sleep quality. Learning relaxation techniques like meditation, deep breathing, or taking short breaks during the day can significantly reduce stress levels.

### D.

In addition to physical and mental challenges, sleep deprivation is another major concern. Many adults and teenagers stay up late scrolling through their phones or watching series online. Lack of sleep reduces concentration, slows reaction time, and increases the risk of anxiety and depression. Experts suggest creating a bedtime routine and avoiding screens at least an hour before sleeping to improve sleep quality.

### E.

On a positive note, technology can also be used to support healthy living. Fitness apps track daily steps, calorie intake, and sleep patterns, encouraging users to set goals and monitor progress. Online platforms offer guided workouts and healthy recipes, making it easier to stay active and informed. When used wisely, technology can motivate people to take better care of their health.

F. Overall, maintaining good health in the digital age requires awareness and balance. It is not enough to focus only on one aspect like diet or exercise. True well-being comes from taking care of the body, mind, and habits

together. Making small, consistent changes—like walking more, eating fresh food, and resting properly—can lead to a healthier and happier life in the long run.

## Questions 1–6: Matching Headings

Match the correct heading (i–ix) to each paragraph (A–F).

Write the correct **Roman numeral (i–ix)** next to each letter.

### List of Headings

- i. The impact of poor eating habits
- ii. Using technology for a healthier life
- iii. The importance of balance and awareness
- iv. Lack of physical activity and its hidden dangers
- v. The negative effects of constant stress
- vi. The rise of sleep-related problems
- vii. How to prevent heart disease
- viii. Benefits of meditation and yoga
- ix. The influence of social pressure on health

## BÀI 24 – INSERT A SENTENCE THÊM CÂU VÀO ĐOẠN VĂN

### HEALTH AND MODERN LIFE

Modern health problems are not only caused by disease but also by daily habits. Many people know what is healthy in theory but struggle to maintain those habits in reality. (I) In recent years, doctors have reported that lifestyle-related illnesses are rising faster than ever before. These include heart disease, diabetes, and obesity—all of which are closely linked to diet, stress, and inactivity.

The modern diet, though full of convenience, often lacks essential nutrients. Fast food and processed snacks have become the easiest choices for busy people, yet they are high in sugar and saturated fats. (II) This pattern has created a generation that eats quickly but rarely eats well. Nutrition experts suggest that people should return to home-cooked meals made from fresh ingredients, as they provide long-term energy and better digestion.

Technology has also changed how people rest and move. With smartphones and laptops everywhere, people spend hours sitting and scrolling, unaware of the physical harm it causes. (III) Over time, this sedentary behavior weakens muscles, reduces circulation, and affects mental clarity. Even short walks or stretching during the day can make a big difference to one's health and focus.

Sleep, another essential factor, is often sacrificed for productivity or entertainment. Many adults and teenagers stay up late checking messages or watching videos, thinking it helps them relax. (IV) However, sleep deprivation affects mood, memory, and decision-making, creating a cycle of fatigue that leads to poor performance the next day.

Ultimately, health is not about extreme diets or gym routines but about balance. Eating fresh food, moving regularly, and resting enough may sound simple, but they require consistency and discipline. A balanced life is the foundation of both physical and emotional well-being.

#### Sentences to Insert – Chọn từng câu thêm vào các chỗ I, II, III, IV: (Không dư câu nào)

0905.002.374

1. People often underestimate how much small daily behaviors affect long-term health.
2. As a result, convenience often wins over nutrition in the modern lifestyle.
3. The constant exposure to screens makes it harder for the body to rest naturally.
4. When health is ignored, the consequences can be silent but severe.

### OUR PLANET, OUR RESPONSIBILITY

Protecting the environment is no longer a choice—it is a necessity. Climate change, pollution, and loss of biodiversity are clear warnings that the planet can no longer sustain our current habits. (I) While governments play a vital role in creating environmental policies, individuals also hold the power to make meaningful changes through small, daily actions.

Modern lifestyles, though convenient, often come at the cost of nature. People drive short distances instead of walking, use plastic for single purposes, and waste energy without realizing it. (II) Over time, these small actions add up and have a massive impact on ecosystems. It is often said that the Earth provides enough for everyone's need but not for everyone's greed.

Education also plays an essential part in building environmental awareness. Schools and communities that teach young people about recycling, clean energy, and responsible consumption help create a culture of sustainability. (III) When people understand how their behavior affects the planet, they are more likely to act responsibly and influence others to do the same.

However, there are still many who believe that individual effort makes little difference. They argue that environmental problems are too large for one person to solve. (IV) Yet history has shown that collective change always begins with individual action—from civil rights movements to public health campaigns. The same principle applies to environmental protection.

**Sentence to Insert: “Some people argue that caring for the planet should be the job of governments and corporations, not individuals.”**

### THE VALUE OF READING

Reading remains one of the simplest yet most powerful ways to learn. It allows people to explore ideas, cultures, and emotions without leaving their homes. (I) In a world full of distractions, books give our minds the space to think deeply.

Unlike watching short videos or scrolling social media, reading requires focus and patience. The process of turning pages and imagining scenes strengthens memory and creativity. (II) Many teachers believe that reading for at least 20 minutes a day can significantly improve a student’s ability to concentrate.

Libraries also play an important role in promoting reading habits. They offer free access to information and create quiet spaces for reflection. (III) When people visit libraries regularly, they are more likely to value learning as a lifelong process.

Still, reading habits are slowly declining in many places. Fewer young people read for pleasure, choosing screens over pages. (IV) Without action, we may lose not only readers but also thinkers who can question and understand the world deeply.

**Sentence to Insert: “This is especially valuable today, when our attention is constantly divided by technology.”**

### CLIMATE ACTION AND RESPONSIBILITY

Climate change affects everyone, yet not all countries contribute equally to the problem. Developing nations often face the worst effects despite having the fewest resources to fight back. (I) Scientists warn that global temperatures are rising faster than expected, and urgent action is required.

Large industries are major sources of greenhouse gases, but ordinary citizens also influence the planet through daily habits such as driving and energy use. (II) Small actions, when multiplied by millions, can create meaningful global change.

International cooperation is key to long-term solutions. Wealthier nations can share technology and provide funding for cleaner energy in poorer regions. (III) When countries work together, progress becomes faster and more sustainable.

However, political conflicts and economic interests often slow down these efforts. (IV) As a result, global conferences sometimes end with promises rather than real progress.

**Sentence to Insert: “This inequality has raised questions of fairness and shared responsibility.”**

## EDUCATION AND TECHNOLOGY

Technology has transformed the way students learn. Classrooms now include digital boards, online lessons, and interactive tools. (I) However, technology is only effective when used to support, not replace, real teaching.

Many teachers worry that students rely too heavily on the internet for quick answers. Instead of developing problem-solving skills, they often copy information without fully understanding it. (II) Critical thinking, therefore, remains the foundation of real education.

Online learning platforms have opened new opportunities for remote areas. Students who once lacked access to good teachers can now join virtual classrooms. (III) This change has made education more inclusive and flexible than ever before.

Yet, there are still challenges. Poor internet connection, lack of motivation, and too much screen time can limit the benefits of digital learning. (IV) The key is finding balance between technology and human guidance.

**Sentence to Insert: “While digital tools make lessons more engaging, they cannot replace the creativity and empathy of human teachers.”**

## NÂNG CAO

### SOCIAL MEDIA AND REAL CONNECTIONS

Social media has changed how people communicate. It allows instant contact with friends and strangers across the globe. (I) Yet many psychologists believe that despite being “connected,” people often feel lonelier than ever.

Online platforms make it easy to share opinions, photos, and daily activities. However, constant exposure to others’ lives can create pressure to appear perfect. (II) As a result, many users begin comparing themselves to unrealistic standards and experience anxiety or low self-esteem.

The digital world also affects the way people listen. Real conversation involves tone, emotion, and body language—things that are often lost through screens. (III) Without these human elements, messages can easily be misunderstood or taken out of context.

Ironically, technology meant to bring people together sometimes builds invisible walls between them. (IV) The challenge today is not communication, but connection—how to stay truly present in an online world.

**Sentence to Insert: “This emotional distance is one of the reasons mental health problems have increased in recent years.”**

## THE FUTURE OF WORK

The world of work is changing faster than ever. Automation and artificial intelligence are transforming industries and replacing repetitive tasks. (I) For many workers, this brings both opportunity and uncertainty.

Some experts argue that machines will eliminate millions of jobs. Others believe technology will create new kinds of employment that don't exist yet. (II) The truth likely lies somewhere in between, depending on how societies prepare for change.

Governments and schools now focus on developing skills that machines cannot easily copy—creativity, teamwork, and emotional intelligence. (III) People who adapt and continue learning will have a better chance to succeed in the modern economy.

However, not everyone will adjust at the same speed. Some workers may struggle to find new roles or retrain for different careers. (IV) The gap between those who adapt quickly and those who cannot could widen existing inequalities.

**Sentence to Insert: “Still, the shift to automation does not mean the end of human value—it simply changes what that value looks like.”**

## 1. Tìm “dấu neo” trong câu càn chèn

Hãy xem câu đó có đại từ, từ nối hoặc cụm nhấn mạnh nào không — chúng là chìa khóa giúp bạn xác định câu trước hoặc sau nó phải có gì.

Dấu hiệu	Nghĩa logic	Ví dụ trong bài	Kết nối đúng
This / These / Such / That	chỉ lại ý vừa nói trước	“This emotional distance...” (Bài 29)	cần câu trước nói về <i>khoảng cách cảm xúc</i>
Still / Yet / However / But	đối lập nhẹ, chuyển hướng	“Still, the shift to automation...” (Bài 30)	phải đúng sau 1 ý trái ngược
As a result / Therefore / Consequently	kết quả hoặc hậu quả	nếu xuất hiện → đúng sau nguyên nhân	
For example / For instance	minh họa cụ thể	phải theo sau 1 khái niệm tổng quát	

## 2. Đọc hai câu liền kề vị trí chèn

Không chỉ xem 1 câu, hãy đọc **câu trước và sau dấu (I, II, III, IV)**.

Nếu câu chèn vào làm mạch ý “mượt” và không trùng lặp, đó thường là vị trí đúng.

## 3. Kiểm tra sự chuyển ý (Transition Flow)

Mỗi đoạn thường đi theo một trong bốn hướng:

1. **Nguyên nhân → Kết quả**
2. **Tổng quát → Cụ thể (hoặc ngược lại)**
3. **Quan điểm A → Quan điểm B (đối lập)**
4. **Vấn đề → Giải pháp**

Nếu câu cần chèn phù hợp với **kiểu chuyển ý đó**, khả năng đúng vị trí rất cao.

#### 4. Loại trừ vị trí “nghe hợp lý nhưng sai mạch”

Nhiều vị trí nghe hợp, nhưng không khớp với *ngữ pháp hoặc logic tham chiếu*.

- Nếu câu có “This / That / These” mà trước đó chưa có danh từ tương ứng → sai.
- Nếu câu có “However” nhưng chưa hề có ý đối lập → sai.
- Nếu câu thêm vào làm trùng ý với câu trước → sai (vì đoạn không bao giờ lặp vô cớ).

## BÀI 25 – SẮP XẾP CÂU TRONG HỘI THOẠI (ARRANGING SENTENCES IN A DIALOGUE)

Giới thiệu các dạng – gợi ý từ số 9

### DẠNG 1 – SẮP XẾP HỘI THOẠI CƠ BẢN (BASIC ORDER)

- b. I heard you got accepted to a university in Canada. Congratulations!
- c. That's exciting! Do you already know when you'll leave?
- d. Thank you! I'm really happy, but also a bit nervous.
- e. Understandable — moving to another country isn't easy.
- f. True, but I guess that's part of the adventure, right?

(Gợi ý: Dựa vào mạch khen → cảm xúc → thông tin → lời khuyên → kết luận.)

### B. Hội thoại về vấn đề công nghệ và thời gian (technology & time management)

- a. I stayed up until 2 a.m. watching videos again.
- b. You really should set a time limit for screen use.
- c. I know, but it's hard when the recommendations keep popping up.
- d. That's how these apps are designed—to keep you scrolling.
- e. Exactly! I open one video, and suddenly an hour is gone.
- f. Maybe try turning off autoplay before bed. It helps a lot.

(Gợi ý: dấu hiệu logic: nguyên nhân – hậu quả – giải pháp, các từ then / so / maybe / exactly chỉ mạch câu.)

### C. Hội thoại về mâu thuẫn trong nhóm (group project conflict)

- a. Our group project isn't going well. Everyone disagrees on what to do.
- b. That sounds stressful. Have you tried talking it through together?

- c. We did, but it turned into an argument about who should lead.
- d. Oh no, that happens a lot in group work.
- e. I know... maybe we need a teacher to help us reorganize.
- f. That's a good idea. Sometimes you need an outside opinion to calm things down.
- g. Yeah, hopefully before the deadline next week.

(Gợi ý: xác định mạch vấn đề → phản ứng → nguyên nhân → gợi ý → đồng ý → kết thúc.)

## D. Hội thoại về áp lực học tập (stress & motivation)

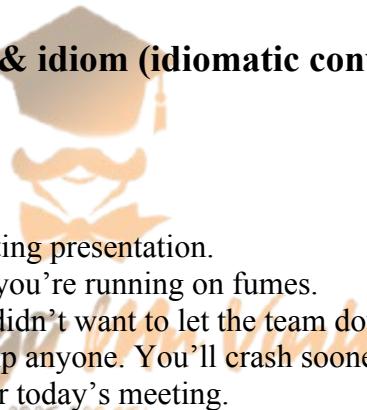

- a. I don't know how you manage to stay so calm before exams.
- b. Honestly, I'm not always calm. I just try to plan everything early.
- c. That's impressive. I usually start revising the night before.
- d. That would definitely make anyone panic.
- e. Yeah, it's my worst habit. I keep promising to change it.
- f. Maybe start by reviewing a little each day instead of cramming.
- g. You're right. Small steps might actually help me stay consistent.

(Gợi ý: mạch cảm xúc – thura nhận – phản hồi – lời khuyên – chấp nhận – kết luận. Dấu hiệu: honestly, maybe, you're right...)

## E. Hội thoại nâng cao dùng từ vựng b2 & idiom (idiomatic conversation order)

Sắp xếp các câu thành hội thoại hoàn chỉnh.

- a. You seem a bit off today. What's wrong?
- b. I pulled an all-nighter preparing for the marketing presentation.
- c. Oh no, again? You really need to take it easy, you're running on fumes.
- d. I know, but there was so much to finish and I didn't want to let the team down.
- e. Still, burning the candle at both ends won't help anyone. You'll crash sooner or later.
- f. Yeah, you're right. I'll try to get some rest after today's meeting.
- g. Good. Remember, working smart beats working nonstop any day.
